THE WAYSIDE GLADIOLUS GARDEN
 ELLA W. WRIGHT, PROP.
 CANTON, MAINE

GREETINGS:

A GLAD and prosperous New Year to all our friends and customers, new and old.

Every farmer and gardener in Maine surely knows what an awful season the summer of 1954 was! With many it ranked as a major disaster. I, for one, would like to forget it, as I have the flood of 1936. It is just a bad dream I had. Suffice it to say that spring was so delayed by cold and rains that our blooming season was about two weeks late. When it did arrive our glads were grand. Most of them seemed to respond to the extra moisture. Of course we didn't have to use our irrigation system at all, except to put on Ra-Pid-Gro. Carol and Edna were most unwelcome visitors. After the damage done by them and the never-ending rains that followed, we felt that we were doomed. However we did get our bulbs harvested in good shape, and have a nice clean lot of bulbs to sell, and I hope plenty in large sizes.

I can't resist telling you about some of the new varieties we tried this year. There were the usual disappointments, of course, but those we'll try again before deciding they are worthy or unworthy to put on our list. PINK DIAMOND, I believe, was the most beautiful thing in our garden. It is a soft pastel pink, tall and heavily ruffled. Julia Mae, very much like Pink Diamond in color, was a close runner-up. Both were much better than C.D. Fortnam which was not up to its usual quality this year. Everyone who saw RUFFLED EBONY oh-d and ah-d over it. It is a silky black with deep wine throat, not so large as Ace of Spades or Black Cherry, but such beautiful ruffling! FIRE OPAL tops the orange class. The older Circe and Boccherini were nice, but they don't have the fire and life that Fire Opal has. If you like the odd ones, COPPER LUSTRE is it. It is an unusual color, hard to describe, sort of rose and brown, intensely ruffled and velvety. BURMA ROSE is another Burma in everything but color, which is much like that of Miss Wisconsin. GOLD BOND, a clear rich yellow, was fine. Flower heads longer than Gold but not so deep a yellow. Gold is still my favorite of the yellows. Two new white ones vied for first place in that class. They were SNOWDRIFT and WHITE EXCELSIOR. MOTHER FISCHER isn't out of the race with the newer ones, however.

We had many visitors to our garden last summer in spite of the weather. In fact one lady came on a rainy day equipped with rubber boots. We are always glad to meet our customers and talk "Glads", and especially if we can be of help.

AFRICAN VIOLETS

Our venture into African Violets has proved highly successful for a beginning. You might be interested to know that we are raising them under fluorescent lights. Due to lack of room, our violet project will continue to be a sideline only. (If I could only have a small greenhouse and raise all I want to!) We have quite a selection of new varieties that I hope will be large enough for sales this summer. Have one of the new double pinks on order, but won't have any of them for sale this year. If you are an African Violet fan, be sure to come to see me and we'll have a "Violet Talk".

GIFT SHOP

We had a fairly successful season with our GIFT SHOP in spite of the scarcity of "summer people" traveling around. Hope to do better this year. We need some new handmade items for our shop, so, if you

have some specialty in handcraft that you would like to sell, we should be very glad to put them in on consignment, and will do our best to sell them for you.

BE SURE TO READ THIS BEFORE MAKING OUT YOUR ORDER.

SAVE MONEY BY ORDERING BEFORE MARCH 15. On bulb orders of \$5.00 or more from this list received before March 15, 1955, and accompanied by CASH IN FULL, you may select extra bulbs of your own choice to the amount of 10% of your order. If you prefer to leave the selection of extras to me I will do my best to please you. Don't forget to order before March 15, and send CASH WITH ORDER if you wish to earn the extra 10%. This does not apply to Collections. Extras on Collections will be in overcount.

TRANSPORTATION

We pay postage on all orders from this list amounting to \$3.00 or over, except Collections. On orders less than \$3.00 add 35¢ for postage. On orders for Collections allow postage for 8 lb. per 100 bulbs, large size, and 4 lb. for medium size. It is cheaper for you to have them sent Parcel Post than by Express. Orders will be acknowledged by postcard as soon as possible after receipt. Keep a copy of your order. Please select a second choice if you are willing for us to substitute. Do not split quantities as listed. Where a variety is listed at 2 for 25¢ do not order one at half price.

Bulbs in this list are large size (1½" and up) unless otherwise stated. All stock is certified by the State of Maine Department of Agriculture to be apparently free from injurious insects and disease. It is our intention to send out only clean, healthy bulbs, true to name. If bulbs are not satisfactory upon receipt, please return them and we will gladly refund purchase price. We cannot guarantee results, however, as planting and growing conditions are beyond our control. We are always glad to help you with any culture problems you may have. A culture leaflet will be included in each order.

If you saw varieties in our garden last summer that interested you and we have not listed them, feel free to write us about them. We may have them but probably not in sufficient quantity to warrant our listing them.

Bulbs will be shipped after danger of freezing is over, usually early in April, unless otherwise requested.

IF YOU LIVE IN THE STATE OF MAINE ADD 2% SALES TAX.

HAVE YOU INCLUDED POSTAGE IF YOUR ORDER WAS LESS THAN \$3.00 or IF YOU ORDERED A COLLECTION?

RA-PID-GRO, SPERGON, BLACK MAGIC

For the convenience of our customers we carry the following and will ship at the following prices if included in your bulb order.

Ra-Pid-Gro 2oz. 25¢, 8oz. 69¢, 1 lb. \$1.25, 2 lb. \$2.35

Spergon Gladiolus Dust(a fungicide to use at cleaning time)

2 oz. pkg. 35¢, 1 lb. \$1.75

Black Magic, African Violet Potting Mixture. 8 oz. pkg. 49¢

We think this is superior to other potting soils we have used. It can be used also for starting leaves.
